## RECRUITING WOMEN

Ferring Pharmaceuticals is conducting a research study at 6 different infertility clinics in the United States. We are currently recruiting women for an Open Label Study to evaluate two different FDA approved drugs in women undergoing IVF. Participants must be between the ages of 18 and 42 years, with a history of infertility and requiring IVF.

## STUDY CRITERIA

If you meet the criteria below, you may be a candidate for this study:

- Premenopausal female, 18-42 years of age
- Body mass index (BMI) of 18-34
- Documented history of infertility
- No previous IVF failure due to a poor response to gonadotropins

Additional screening will be conducted to determine if a patient is eligible to participate. Women who qualify and undergo an IVF treatment cycle will receive a reduction in IVF fees.

If you are interested in participating or would like more information please contact one of the study centers listed.
